Hi Lauren – One of my colleagues informed me that 12:00 PM may be a bit difficult for her as she needs to tend to her younger child. I would like for everyone to attend this call as we are all following chemical recycling. Would any of the 2:00 PM slots work for you?

Thanks,

Swarupa

Dear Swarupa,

Thank you for reaching out. Let's plan for the 14th of May at 12 PM EST. I am based in Denver and that time also works well with me.

If it works with you and your colleagues, I will send a Microsoft Teams meeting link, that way I can share a high level presentation about Plastic Energy to guide our discussion.

I look forward to connecting with you all next week.

Best regards,

Lauren Versagli

Dear Lauren –

I am following up on your email to Ron Vance to set up an introductory meeting with our colleagues and discuss Plastic Energy's technology. I am not exactly sure where you are based, but I assume afternoons in Eastern Standard Time (EST) are convenient for you. We have a conference number that works in the domestic United States; however, if you have any other video/conference call options, please feel free to set up the call. Our available times include:

- May 11 – 2:00 PM
- May 14 – 12:00 PM
- May 18 – 2 PM
- May 28 – 12 PM

I look forward to hearing from you.

Kind Regards,

Swarupa

Hi Ron,

I hope this email finds you well. I wanted to follow up with you on our correspondence at the end of last month and see if we can schedule a call for sometime in May with you and your colleagues from the EPA who may be interested to join.

Please let me know when you get a moment if we can get something on our calendars.

Best regards,

Lauren Versagli

If it's okay with you, I will check with schedules here and identify a couple of options in May.

Thanks,
Ron

Hi Ron,

Setting something up in May will work on my end. Shall I propose a time and you can forward to any colleagues which will want to join?

After that call, we can decide how to engage the regulatory side and if/how that makes sense.

Have a good afternoon,

Lauren Versagli

Hello Lauren. It was a pleasure to meet you in Chicago and thanks for reaching out so that we can stay connected. I think it would be great for our team to hear from you about your running plants in Spain. However, given all that is going on currently, we might need to wait a little while before we are able to get folks together for a virtual meeting. Maybe we can set up something in May?

Also, my program is on the voluntary side. As such, we do not deal with the regulations and would not be able to give you guidance for your plant. However, we might be able to connect you with others that might be helpful, but we likely would not be able to get them into the same call.

Thanks,
Ron

Dear Ron,

It was great to meet you in Chicago a couple of weeks ago and to hear your talk on all your important data analysis at the EPA. As neither of us had a card to exchange, I wanted to follow up with email to make sure we are connected.

Plastic Energy is an advanced recycling technology company with two commercial plants running in Spain. We are looking to grow and expand our business here in the USA. As I am getting up to speed on all the different project aspects, I could imagine it would be very useful to learn more about how to interact with the EPA and understand the regulations and guidelines for our type of plant.

Would it be of interest to you to have an introductory call? I can explain a bit more about our technology and would also like to learn from you some of the key things I should be prepared to address as we start our work here in the states.

Please let me know when you have a moment and I hope you are adjusting well to the new changes in work and life with the COVID – 19 concerns and actions.

Best regards,

Lauren Versagli
